CARBON CHRONICLE

Job Printing
Every Kind

Vol. 5, No. 7

Carbon, Alberta, Thursday, March 17th 1927

\$2.00 a Year

Here We are at the Old Stand
After the Long Winter !!

We have many new improvements to offer in
this year's cars—in particular the

HOLLEY VAPORISER

The Fordson Tractor is better than ever.

We have a good line of used cars, the
prices on which have been re-
duced to a minimum so that we
can make room for our new cars,
which we hope to be able to
show soon.

CALL AND RENEW ACQUAINTANCE WITH
OUR MANAGER, MR. STOUT.

He will be glad to give any information necessary

CARBON CHESS TOURNAMENT

The Chess Tournament for the championship of the Carbon Chess
Club is now nearing completion. Below is the standing of the play-
ers:

	Games played	Won	Lost	Drawn	Points
W. A. Braisher	16	15	1	0	30
H. A. English	16	12	4	0	24
R. English	17	10	7	0	20
T. Laing	18	10	8	0	20
W. Dixon	16	8	7	1	17
D. Code	12	7	4	1	15
H. Birch	12	4	8	0	8
C. McPherson	12	4	8	0	8
W. Poxon Jr.	11	1	10	0	2
R. Heath	12	1	11	0	2
R. H. Purdy	4	0	4	0	0

The starts in the sealed handicap will not of course be known un-
til all the games have been played.

LITTLE ITEMS OF LOCAL INTEREST

—Brood Sows For Sale. Bred and
in good shape, due in latter part
of April. —Apply to E. Spry, 9½
miles north of Carbon. tf

J. Baird, of New Westminster,
B. C. arrived in Carbon last Friday
to look after his business interests
here.

W. D. Braden's auction sale, which
was to take place on Tuesday March
15, was postponed till Friday,
March 18.

D. F. McKinnon has sold the old
power engine to some lumbering
concern in Wetaskiwin, and it was
loaded at the local C. P. R. yards
on Saturday last. Quite a time was
experienced when the engine,
about 24 tons in weight, went
through the flat car on which it was
being loaded and had to be chang-
ed to another car. This, however,
was done without much difficulty.

Mrs. R. J. Fairbairn returned
to Carbon on Friday, after spend-
ing a week in Edmonton.

FOR SALE—Seed Oats, Govern-
ment germination test 92 p.c.
Also Barley and Potatoes.—Apply
A. Reid, Carbon.

Mr. and Mrs. John Hummel re-
turned last Friday after spending
the winter in California.

A. H. Jealous left for Calgary on
Monday to visit Mrs. Jealous, who
was to be operated on in the Cal-
gary hospital on Tuesday. Dur-
ing Mr. Jealous' absence, Mr. H.
Birch is acting manager of the
Crown Lumber Co.

Miss Mae Williams returned on
Thursday after a short visit in the
City.

After the long winter months,
school is again being called at 9.00
o'clock instead of 9.30.

Born to Mr. and Mrs. Fred Mor-
rison of Toronto, formerly of Car-
bon, a son, James Douglas.

The sum of \$33.00 was realized
from the tea and sale of home cook-
ing, in the Nash Ice Cream parlor
on Saturday afternoon under the
auspices of the Ladies' Aid of the
Carbon Union Church.

Mr. and Mrs. Jas. Clayton return-
ed from a visit to Calgary on Wed-
nesday.

"The Challenge of Our Mission
in India" will be the subject at the
Union Church on Sunday night.

H. A. English was a business
visitor to Drumheller last week.

Sells & Leitch have dissolved
partnership and all debts must
be paid to R. E. Sells before March
18th, otherwise said accounts will
be collected through the Small
Debts Court, Calgary.

Miss Mildred Petrie returned to

Carbon on Monday and is quite
recovered from her recent opera-
tion.

Latest reports are that Mrs. H.
Jealous underwent a very success-
ful operation on Monday.

Mrs. McKibbinn arrived in Car-
bon on Friday afternoon, to join
her husband here.

Grainger Notes

Mr. and Mrs. Guy Ostrom and
Mr. and Mrs. MacMillan spent the
week end in Calgary.

The C. N. R. bridge crew are
doing considerable repair work on
the wooden bridge over the Knee
Hill creek.

Geo. C. Grainger is just recover-
ing from an attack of Lumbago.

The regular meeting of the coun-
cillors of the Municipal District of
Norquay was held in Acme on
Monday March 14. Besides the
usual business of the council, E. H.
VanWart was nominated reeve in
place of E. E. Keine, who has held
that office for the past two years.

Mr. and Mrs. W. J. Gordon en-
tertained a number of friends last
Friday evening.

Well over two hundred members
of snowshoe clubs in Montreal, and
other centres in Quebec, left over
the Canadian Pacific lines recently
to attend the annual conventions of
the Canadian and U.S. Snowshoe
Unions at Manchester, N.H.

Japan ranks third in world ton-
nage. Great Britain heads the list
with an aggregate tonnage of 21,
952,000 tons, the United States sec-
ond with 13,740,000 tons and Japan
third with 4,000,000 tons; Germany
follows with 3,000,000 tons.

LARGE CROWD OF RESIDENTS WATCH RISE OF WATER

A large number of Carbon resi-
dents lined the banks of the Knee
Hill creek on Sunday afternoon, to
watch the water flow down the
creek and over the dam, which has
recently been repaired. The wa-
ter kept continually rising all day
Sunday, until it practically reach-
ed the top of the dam about 8 o'-
clock that evening. In spite of
the heavy snow fall Monday and
Tuesday, the flow of water in the
creek still continued and with the
warmer weather again, the flow is
becoming greater each day.

GRADING OF SEED WHEAT AT THE CARBON ELEVATORS

I sent for a sample of Vermillion
wheat from Frank Larcombe, of
Minburn, Alta., which wheat he
sells for No. 1 northern, at \$2.50
per bu. I took this wheat to the
Carbon elevators on March 10th,
to have it graded. The Alberta
Pacific graded it No. 1, but could
not say whether it was tough or
northern until he saw the load. I
then took it to the Midland Grain
Co. and they graded it No. 3, but
he could not say whether it was
tough or northern until he knew
how much moisture was in it. And
finally I took it to the Grain Grow-
ers elevator and they graded it a
good No. 2 northern.

After such an instance as this,
is it any wonder that the farmers
are going backward when they get
cheated out of their grade like this?

EMIL J. OHLHAUSER

(Elsewhere in this issue is an ac-
count of the "Vermillion" wheat.)

Feted by the Governor of the
State, the Mayor and many other
prominent people of Columbus, Ohio,
has been the experience of Sam
Glode, Micmac guide of the Milford
Camp in Nova Scotia, who arrived
at the Windsor Station, Montreal,
recently, on his return from a two
weeks visit to Columbus, where he
attended the convention and banquet
of the League of Ohio Sportsmen.
Glode is noted throughout the woods
of Nova Scotia for his uncanny
ability at moose calling, addressed
the gathering of over 1,500 sports-
men on Canadian hunting facilities,
particularly in reference to Abba
Scotia.

HEADQUARTERS FOR AUTOS, OILS, TIRES, MACHIN- ERY AND ACCESSORIES

A FEW POINTERS

Whether you buy from us or not, we will advise in our lines
as above.

We have kept our doors open all winter. It has been a
long winter. We have given service. When buying cars see us
and we will give you a square deal and save you money. You
do not have to run miles to get service.

WE INSTALL VAPORISERS IN YOUR FORDS

We have had vaporisers on the Case tractors for years.

What is a vaporiser? It is simply the fuel going through
a hot chamber breaking up the constituent parts and making
easy combustion. Of course it saves and cleans.

You get the benefit of a course in the Coyne College of
Electricity and autos, by bringing your work to

OLIVE BROS. GARAGE

DON'T FORGET TO HAVE YOUR TRACTORS OVER-
HAULED. GIVE THEM A CHANCE.

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monopropionic-acid ester of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Is the Vote Worth Having?

To the people of Canada, and other countries enjoying the rights, privileges and liberties which responsible government confers upon them, fully appreciate the value of these possessions?

Recalling the long and bitter struggles that took place, first in Great Britain and later in Canada, as well as in practically all countries now under democratic institutions, for the right of the franchise, it would almost seem absurd to ask if people valued that which was so dearly won. Inquire of almost any Canadian citizen and the reply would undoubtedly be: "Of course, I value my rights of citizenship." Actions, however, speak louder than words, and how do thousands of Canadians make answer to this question when deeds rather than words are required?

The Chief Electoral Officer for Canada has recently prepared a statement of votes cast throughout the Dominion in the general election of last September, showing the total to be 3,273,042. The Dominion census of 1921 gave the population of Canada as 5,788,183. Using round numbers it may be assumed that the population was at least 5,000,000 in 1920. Of these 5,000,000 approximately one-half would be represented by those under 21 years of age or un-naturalized adults, leaving about 1,500,000 qualified voters. To be quite within the mark, say 1,250,000.

In other words, approximately one million citizens of Canada qualified to vote, or almost 25 per cent. of all voters, held their right to the franchise in such small esteem that they did not take the trouble to go to the polling booths in a general election to decide questions of national policy, involving the personnel and policy of the National Government for the next five years.

It is Canadian showing, while not one to which our people can point with pride, is decidedly better than the United States record, where in the elections of last November, when thirty-four State governors, thirty-five senators, the entire House of Representatives, nearly all the members of state legislatures, and thousands of municipal, county and other officials were elected, only one-third of the qualified voters went to the polls, the other two-thirds refusing to use their freedom and take upon their shoulders the duties and responsibilities of citizenship.

The people of Great Britain discharge the duties of citizenship better than elsewhere in the Empire, with the exception of Australia. But Australia votes under pressure and compulsion. Although the Commonwealth has equal adult suffrage, such a large proportion of its people refused to use the ballot that compulsory voting was established, and with good results so far as getting the people to the polls is concerned. In the last federal election in Australia and in a more recent national plebiscite, 90 per cent. of the total registered vote was polled.

Is it not, however, passing strange that men and women must be compelled under pain of a fine imposed for failure to vote, to discharge the first obligation of their citizenship?

As one publication, commenting on this amazing apathy on the part of a large section of the people, very truly says, no country can be well governed where only the professional political elements interest themselves in elections. Unfortunately a great percentage of those who refuse to vote have the curious conceit that they are the superior classes; that politics is something beneath them. Such people are, in fact, less worthy citizens than the professional ward workers in our large cities.

If Canadian citizenship is worth anything, it is worth at least the trouble involved on election day of going to the polls and exercising the franchise which such citizenship confers.

Nearly Hundred Years Old

Experiments Made in 1835 With Electrically Propelled Cars

Electric propulsion of cars dates as far back as 1835, when Thomas Davidson, of Vermont, and in 1838 Robert Davidson, of Scotland, both ran experimental cars by voltaic batteries coupled on the car. It was not, however, until the dynamo electric machine was perfected, so as to reduce the cost of current, that any practical system was devised.

The Portland and Grand's Causeway, England, electric tramway, in 1882, was the first line in the United Kingdom which took the current from a conductor.

Distemper

Responds to treatment with Minard's. Mix with molasses and pour over a brain wash.

Incident Worth Mentioning

Union Jack Dropped From Laurentic's Mast When Located by Diver

The story of how the gold on the White Star liner Laurentic, sunk by the Germans in the war, was recovered by divers operating from the Admiralty steamer Racer, now about to be sold, is one of the most thrilling in the history of sea salvage. One incident that was thought too trivial to be recorded at the time is worth mentioning now, for the touch of the sea tradition it brings into the story.

The Laurentic sailed from New York in January, 1917, her strong room filled with gold and silver worth about \$5,000,000. She was struck by German torpedoes off Lough Swilly and sunk in 120 feet of water. After two years an effort was made to salvage, and then when a diver went down from the Racer he found, drooping from the Laurentic's mainmast, a faded flag with several rents in it—the Union Jack.

Because labor is cheap, Indians in Bolivia, South America, are beasts of burden.

"I realize the gravity of the situation," said Sir Isaac Newton as the falling apple hit him on the head.

Was Once Smugglers Haunt

But Now St. Helen's is England's Most Moral Village

St. Helen's, Isle of Wight, is undoubtedly England's most moral village. So good and peace-loving are the inhabitants that the local police station has been closed.

A policeman from Seaview, a few miles away, cycles to the village every day as a matter of form. The time of his arrival is known to all. He is greeted with smiles. There is never anything serious for him to do.

Thirty years ago things were different. Strangers had to be careful if they visited this tiny hamlet after dark. The inhabitants distrusted visitors, and were apt to show their dislike. A notorious gang of smugglers had their headquarters here and quantities of rum and contraband goods passed into the island for transport to London.

Innocent little thatched cottages or the crypt of a neighboring church were used as hiding places by the smugglers. The police and the revenue men were never idle.

RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one—Mr. J. W. Rose, R.R. 2, Albany, P.E.I., says: "For some years I was a great sufferer from rheumatism and although I tried a great many remedies, I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulders, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is try Dr. Williams' Pink Pills at once."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

All fighters are ripe but none of them use as much red tape as fight commissioners.

INDIGESTION, GAS,

UPSET STOMACH

Instantly! "Pape's Diapepsin" Corrects Stomach so Meals Digest

The moment you eat a tablet of "Pape's Diapepsin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

The ability to speak several languages is valuable, but the ability to keep your mouth shut in one language is priceless.

"I want to help" says Allen Boudria

Tells facts from own experience to help others. Almost wild with pain, weak and rundown, he won new health and strength through Tanlac

Allen Boudria, engineer, of 132 St. Patrick St., is one of Ottawa's best known citizens. "My purpose in telling the facts of my experience," he said, "is to help others who suffer as I did."

"For five years I was in misery. My whole system seemed out of gear, but my stomach troubled most. Even a drink of cold water would cause my stomach to bloat and swell abnormally. Gas would prevent me from sleeping at night so that I had to get up and walk the floor for hours. Violent stomach pains nearly drove me wild. I've seen times when I was doubled over, unable to straighten up."

"My friend M. Laporte told me how Tanlac had helped him out of similar trouble, so I got some and used 9 bottles in all. It just made me over. I feel 20 years younger than I am, and weigh 134 lbs. My appetite and sleep are both fine. I eat what I like and sleep like a top. Tanlac and nothing

else, made this great change. I'm for Tanlac."

If overwork or neglect have worn you down get Tanlac, the great natural tonic made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Gives Concert From Airplane

Singer in Machine 4,000 Feet Up Uses New Device

In flight approximately 4,000 feet above the street, John Charles Thomas, concert baritone, sang operatic arias to an audience in Columbus Circle, New York, in the first official test of the "Voice of the Sky," a secret sound-producing and amplifying device which makes possible direct vocal communication between aircraft and any one on the ground.

Mr. Thomas sat snugly in a cabin of the plane, singing and talking into this newly perfected amplifier of the Plane Speaker Corporation of Philadelphia, while his audience stood shivering in the frigid blast below.

Despite the fact that the plane was bucking of a 40-mile breeze, and despite the din of street traffic, the melodies were heard distinctly by the crowds on the sidewalks.

"Hello, New York," came down from the sky in stentorian tones. Then to further demonstrate the amplifier, Mr. Thomas while circling about, addressed his ground audience briefly.

Leaders in the aircraft industry witnessed the demonstration. Major General John F. O'Ryan, president of the Colonial Air Transport Company of New York, one of whose planes was used in the test, said he believed the "Voice of the Sky" would be of great value in commercial aviation.

"With this device installed in planes on our New York Boston route, and on the proposed New York to Chicago route," he said, "it will be possible to communicate with the towns and cities over which they pass, as 'No mail today for Sandusky,' or similar spoken messages from the air."

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Addressing a political gathering, a speaker gave his hearers a touch of the pathetic. "I miss," he said, brushing away a not unmanly tear, "I miss many old faces I used to shake hands with."

A Prime Dressing for Wounds. — In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

The coldest time of the day is the hour just after sunrise, according to scientists. This is explained by the fact that when the sun strikes the earth it causes the evaporation of a chilling moisture.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

A British army regiment recently returned from Constantinople to England, after being absent 18 years and having served in eight countries.

Keep Minard's Liniment in the stable.

A BROKEN DOWN SYSTEM.

This is a condition for disease to which doctors give many names, but which few of them really understand. It is simply weakness after a day, as it were, of the vital forces that sustain the system. No matter what may be its cause, they are almost numberless, its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary duties of life. Now, what is absolutely essential in all such cases is increased vitality—vital strength and energy to throw off these morbid feelings, and as night succeeds the day this may be most certainly secured by a course of

THE NEW FRENCH REMEDY THERAPION NO. 3

that by any other known combination. Specially adapted in accordance with the directions accompanying it, with the utmost health hereafter. THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH. and a new existence imparted in place of what had so lately seemed worn out, used up, and valueless. This wonderful medicinal is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a disease or derangement whose main feature is weakness, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for the while spread a numerous class of humoral ailments. Some Encouraging Signs Show Better Planning of Towns is Now Taking Hold in Canada

Town planning is making slow but certain progress in Canada, according to the report of the committee on town planning of the Dominion Land Surveyors' Association, compiled by D. H. Bartley, D.L.S.

The committee finds, in reviewing the progress of the year in this world-wide movement, that there are some encouraging signs that better planning of towns and cities is catching on in the Dominion. From east to west it is found that in the larger cities there is an awakening consciousness as to the benefits to be derived. In Montreal the movement is voluntary, an organization having been formed for the development of a plan which can hardly fail to result in the operation of an official city plan sponsored and financed by the city.

In Vancouver action followed the passing of a provincial Town Planning Act. The city promptly appointed a town planning commission and consultant and staff to create a comprehensive plan for the city and environs at a cost of \$40,000, spread over three years. Surrounding municipalities probably will agree on a regional plan.

Industrial companies who are establishing great enterprises in Canada are keenly alive to the advantages of correct planning of their town sites. Mr. Bartley reported. For instance, at Arvida, Que., the Aluminum Company of Canada is laying out the nucleus of a city for its employees on former raw lands comprising some 600 acres. They are proceeding on carefully prepared plans designed for an ultimate population of 49,000. Construction of 270 houses was included in last year's program, and plans include development of roads, sanitary and fire protection and landscape treatment.

In Western Canada the town planning movement is gathering momentum. Certain of the municipalities around Winnipeg are taking steps toward the formation of town plans under Manitoba laws, and the City of Edmonton has announced its intention of proceeding similarly. Kitchener, Victoria and Ottawa are other Canadian cities in which definite progress has been made.

The report concludes: "It is suggested that the dominant course for the rapid advancement of town planning in Canada is a matter of education and persuasion and that the necessary enactments will inevitably follow. If in the development of our young Canadian cities and towns we can, by wise planning, avoid the creation of slum and tenement districts, we will be in a far more advanced position than could be secured by any frantic efforts in the future to develop lavish civic monuments in an attempt to conceal the squalor of the neglected districts."

The Village Blacksmith

Business Was Never Better in This Trade Than It Is Today

Those who lament the passing of the village blacksmith with his muscled arms and musical anvil, will dry their tears when they learn that the business of the village smithy was never better than it is today.

This fact was brought out at the annual convention of the Manitoba Association of Blacksmiths, Horse-shoers and Woodworkers, held in Winnipeg.

Although the old grey mare is giving way to the new "In lizzie" the blacksmith still finds his brow damp with honest perspiration. Instead of fitting dobbin with a new set of iron shoes, he is called upon to fix a broken gadget on the tractor and other mechanical repairs.

Business is good in the blacksmith trade, but is difficult to get the rising generation to take it up. Blacksmiths immigrating from Europe must be relied upon to keep the business going in the next generation, it was said.

The word "highway" is said to come from the name of the old Roman road which was elevated as much as four feet above the surface to permit good drainage.

W. N. U. 1670

Danzig Families for West

Several Hundred to be Brought to Canada is Report

According to reports, arrangements have been completed for the bringing out to the west of several hundred families from the Danzig Free State. This information is given by Rev. E. Schmok, Winnipeg, manager of the Lutheran Immigration Board, who has returned from a trip to Europe. While there he visited Germany where he interviewed the government officials of that country on emigration. As a result of his interview he expects heavier immigration from that country, this year.

The Lutheran Immigration Board connections have been enlarged in Europe, and 10,000 agricultural settlers will be brought to Canada through activities of that organization, according to Mr. Schmok.

1492

A New Bloomer Dress

Charmingly simple is the attractive bloomer dress pictured here and a style very easily fashioned. The front and back are gathered to a fitted yoke opening on the kimono shoulders while a trim belt fastens in front. The bloomers have elastic run through a top casing and at the lower edge of the legs. No. 1492 is in sizes 2, 4, 6 and 8 years. Size 4 years requires 2 1/2 yards 36-inch material, or 1 1/2 yards 54-inch, and 3/4 yard 36-inch contrasting for yoke and belt. Price 20 cents the pattern.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Swedish-Belgian "No War" Pact

The Royal Swedish-Belgian matrimonial alliance between Princess Ast and Crown Prince Leopold of last fall has been followed by an agreement between the two countries never to go to war over any subject, even those usually excluded, "vital interests" and "national honor."

Dentist Advises Use of Milk

Says Average Modern Diet Lacking in Calcium and Phosphorous

At the Board of Trade meeting here, Dr. Wallace Seecombe, Dean of the Faculty of Dentistry of the University of Toronto, took issue with the suggestion of Dr. J. Sim Wallace, of England, who has been lecturing throughout Canada that milk should not be continued in the diet beyond two years of age, after the deciduous teeth have erupted. Dean Seecombe stated that the average modern diet is generally lacking in the essential elements of calcium and phosphorous and urged that milk be continued in the diet of children and also of adults because it contains in average serving more of the vital elements than are contained in any other food.

It was also stated by Dr. Seecombe that the teeth of the nation were suffering by over-indulgence in sweets and soft foods. Milk is an excellent food but should not be used for soaking other articles of diet. The food should be so prepared that thorough mastication will be necessary, and this will assist materially in maintaining dental health.

Advantages of the Country

Subjects of Interest More Varied Than Those in City

It is a matter of common observation that countrybred people are not more dulled than townfolk. Rather have they stores of wisdom which the feverish distractions of townlife do not breed.

For the purpose of education the country provides for more favorable material in some ways than the town. One does not need to be a Wordsworth or a Jefferies to find inexhaustible subjects of interest and inquiry in the earth and every common life.

The boy who lives amid meadows, mountains, woods and streams is at an advantage as compared with his fellow whose horizon is bounded by bricks and mortar, the endless monotony the streets and the endless bustle of the factory and workshop.

Sharks May Furnish Leather

Sharks may some day rival cattle as leather producers of the world, in the belief of Martin M. Chelquist, representative of a Seattle leather company. After spending 18 months in Japan instructing Japanese fishermen in the value of "sea steers" hides he predicts that sharks, once used only for food in the Orient, soon will be a substantial source of raw leather.

Dad—My dear girl, has he given you any encouragement?

Dot—Well, last night he asked if you and mother were pleasant people to live with.

Question of National Defence Is Engaging Serious Attention Of Authorities in Canada

For Fattening Cattle

Rape, Kale and Cabbage Make Excellent Pasture for Sheep, Swine and Cattle

Rape, kale and some varieties of cabbage make excellent pasture for sheep, swine and cattle, being particularly valuable for young cattle and fattening steers. Grown in poultry runs, they make a satisfactory free-range food for most kinds of poultry. They occupy a permanent place in the regular farm rotation in many European countries. They are, however, not yet utilized in Canada to the extent that their value warrants and in order to bring them to the attention of farmers the Dominion Experimental Farms Branch has recently issued a pamphlet entitled "Fleshy Annual Pastures" giving information concerning these crops in the hope of bringing about their more general use.

These fleshy annual pastures thrive under a great variety of climate and soil conditions, and they yield surprisingly well even where the summer rainfall is light. New land may be used to advantage for growing them, and on muck soils they are frequently more profitable than any other forage crop. The pamphlet, which may be obtained from the Publications Branch, Department of Agriculture, Ottawa, gives general information on the cultivation of these crops and the uses to which they may be put.

Account Book for Farmers

Department of Agriculture Prepares One for General Use

Frequent reference has been made in recent issues of the farm press to the desirability of making an inventory or taking stock of farm supplies, implements, live stock, etc., during the month of March. The suggestion is a good one, and the Dominion Experimental Farms System has published an extremely simple Farmer's Account Book in which are several pages especially designed to assist the farmer in making such an inventory. To "keep accounts" in this book requires no special knowledge of accounting, simply the ability to write and add, and a record of transactions can often be made in less than one hour a week. The book may be obtained from the Publications Branch of the Department of Agriculture, Ottawa, at a nominal charge of ten cents. No postage need be placed on letters of application.

Since the definite declaration by the Imperial Conference of the independent status of the Dominions there has been a good deal of discussion in Canada of the question of national defence. Reports from Ottawa intimate that the principal feature of the estimates for the Department of Defence will be an increase in the appropriation for the air force with the object of building up that branch.

The Ottawa Citizen thinks that the Royal Canadian Naval Air Service should be revived. It speaks of the work which it did during the war in protecting Canada's sea lines of communication and it says:

"Canada should have a minimum number of cruisers, mine-layers, destroyers and auxiliary ships for naval service; but most effective, without great expense, would be the revival of the Royal Canadian Naval Air Service. An efficient air service cannot be hastily conjured up overnight. The whole success of flying depends upon preliminary organization."

"The development of civil aviation will furnish the very best kind of reserve for national defence. In the development of an air force reserve, however, one of the first steps should be to take the administration of civil aviation out of military control. Civil government flying and commercial aviation should be administered as are merchant shipping and railways, by civilian officials."

In Great Britain, where there is a separate Air Ministry, the department of civil aviation is administered quite apart from the Royal Air Force—although, of course, there is the closest co-operation in building up an air force reserve. It would be an economy for Canada to bring civil aviation, shipping, radio-telegraphy, railways and canals under one minister, in a Department of Communications."

The Citizen suggests that Major-General MacBrien, who has just resigned as chief of staff of the Department of Defence, would be a good man to put in charge of the development of civil aviation. He has qualified as an air-pilot.—Manitoba Free Press.

Round Up of Wild Horses

Campaign in British Columbia to Make a Clean-Up of Roving Bands

Hundreds of wild horses that have been roaming the bunch grass and sage brush country and the Cariboo mountains in British Columbia, are to be rounded up and slaughtered by horse hunters engaged by the Provincial Government.

The campaign has been carried on in a desultory fashion for several years, but this year the Government hopes to make a "clean-up" of the roving bands that have been eating cow and sheep pasture and causing depredations among domesticated stock.

It is estimated there are 10,000 wild horses in British Columbia, most of them descendants of the stock brought into the Cariboo gold country by the miners of half a century ago.

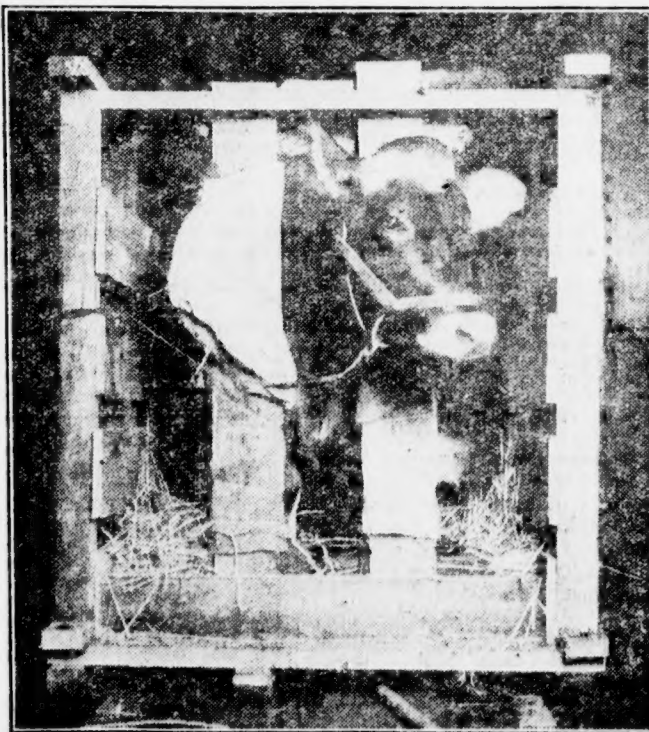

According to officials of the Government who are planning the round up, there is no cause for sentimental regret. The majority of the horses are not of the high-spirited, graceful mustang of the fiction type, but broken-down, half-crippled animals whose killing would be an act of kindness.

It has not been decided what will be done with the carcasses, but it is probable they will be shipped across the United States border to a plant where such material is being used for the manufacture of fertilizer.

An Extraordinary Forest

What is probably the most extraordinary forest in the world occupies a tableland some six miles in width, near the West Coast of Africa. The trees only reach a height of one foot, although their trunks are as much as four feet in diameter. No trees bear more than two leaves, and the latter are often six feet long.—Popular Science.

Men sometimes make money, but money never makes men

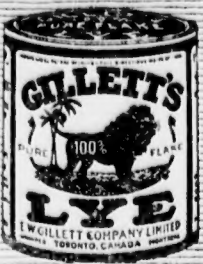

Champion Jersey of the World

A Jersey calf, drawn in a Government calf club at Armstrong, B.C., has turned out to be the champion Jersey cow of the world, holding the record for milk and butter production over a period of ten months.

Pretoria Oxford Janet is the name of this distinguished champion and is owned by Harry Whittaker of Armstrong, B.C. The cow is the only Jersey in the world to give over 1,000 pounds of butter during a ten months test. She also yielded during the same period 14,955 pounds of the purest milk.

The champion is seen looking contentedly from a Canadian Pacific Express car on her arrival at Vancouver recently to be exhibited at the annual livestock exhibition at Spencers.

Flag Made of Feathers

Made completely of feathers of birds of paradise, an enormous Italian flag has been received by Signor Mussolini from a missionary who left Rome three years ago for British New Guinea. At the time the missionary went away Mussolini made him a present of a bicycle, a saddle, and an Italian flag.

"CASCARETS" FOR COSTIVE BOWELS, HEADACHE, COLDS

To-night! Clean your bowels
and stop headache, colds,
sour stomach

Get a 10-cent box now.

Turn the cascades out the head-ache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

A huge snake known as a suari, 21 feet long and weighing 352 pounds was captured recently in Central Brazil. This snake is said to eat but four times a year.

Babies Cry For "Castoria"

Prepared Especially for Infants
and Children of All Ages

Mother's Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it.

The genuine bears signature of

Chas. H. Fletcher.

Warden. It is our custom to let a prisoner work at the same trade here as he did outside.

Editor:—Yes, sir, I was a travel-ling salesman.

The Baby's Cold

Continual "coughing" with internal medicine upsets delicate little stomachs. Treat colds externally with Vicks. You just rub it on.

WORLD HAPPENINGS BRIEFLY TOLD

A sum of \$1,000, lost by a party of settlers in a train near Vancouver, B.C., was recovered by a track walker and returned to the owners.

The Canadian legation unfurled its first strip of bunting Feb. 22, in honor of Washington's birthday. Its flag on this occasion will be the Union Jack.

Queen's University announce a new fellowship for the encouragement of research in Canadian history. Sir James Aikens, of Winnipeg, contributed \$5,000 toward the endowment fund, making the new fellowship possible.

Correct attire is required of street car passengers at Rio de Janeiro and the rule is rigidly enforced. Men must wear a collar and tie, and on the first class cars, a coat. A conductor recently stabbed a man who insisted on riding in violation of the collar and tie order.

King George has appointed Lady Maude Hoare a dame commander of the Order of the British Empire. The appointment is in recognition of her recent voyage to India which she made by air, accompanying her husband, Sir Samuel Hoare, British air minister.

SUNDAY SCHOOL LESSON

MARCH 6

SHARING THE GOOD NEWS

Golden Text: Ye shall be My witnesses. Acts, 1:8.

Lesson: Acts 8:1-8; 2 Corinthians 5:11-20.

Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

I. Sharing the Good News in Samaria, Acts 8:1-8.—Persecution followed the martyrdom of Stephen, and the disciples were forced to flee from Jerusalem. They were scattered abroad. They did not think that the responsibility of witnessing for Christ rested upon the leaders alone, and the entire rank and file went about preaching the word.

Philip, one of "The Seven," who became known as Philip the Evangelist because of the success of his ministry (Acts 21:1-8), went down to the city of Samaria. The Jews had no dealings with the Samaritans, but their Lord's last command (Acts 1:8) bade them witness for him in Samaria. To overcome their prejudice against the Samaritans, the followers of Jesus needed only to go to Samaria and preach to them.

If you are prejudiced against any one, do him a good deed.

The Samaritans, like the Jews, were looking for the Christ; Philip made known to them the fact that he had already come. Philip probably little realized the greatness of the movement he was inaugurating when he went down to the city of Samaria and proclaimed unto them the Christ. He found the fields white unto harvest; the people accepted his good tidings concerning the Kingdom of God and were baptized. There was great joy among them when many with unclean spirits, the palsied and the lame, were healed.

"It follows as the night the day that a church with a real personal contact with God cannot keep still about it."

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

To remove old wallpaper, stir a quart of flour paste into a pail of hot water, then apply this mixture to walls. Being thick, it will not dry quickly, but will saturate the paper, which may then be easily scraped or peeled off.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Easily Identified

A peer was taking a stroll through the grounds when he met a little boy whom he did not recognize for a moment. Then he remembered that the boy was his chauffeur's son.

"Now, I wonder, if you know who I am?" said the peer, with a smile.

"Oh, yes," replied the boy; "you are the man who rides in my daddy's motor."

Minard's—the dependable liniment.

Announcement to RED ROSE TEA Enthusiasts

CENTURIES ago, when tea was first introduced to the English Nobility, the precious leaves—then almost priceless—were packed in sealed lead containers.

For many generations lead continued to be used as a protective package for all fine quality teas. Then the modern metal, Aluminum, was introduced. But during war-time and later, paper bags and paper boxes were largely used and have held sway ever since.

In our 30 years experience putting up Red Rose Tea we have used all these containers and each has some particular merit.

But careful tests over a long period prove that Aluminum is by far the best container that has yet been found, and paper packages of every kind the poorest. When in contact with dampness paper absorbs moisture which soon affects the quality of the tea, and in some instances completely spoils it.

Having found the paper package unreliable and uncertain, we have again adopted the Aluminum package which we used years ago. For we know now that Aluminum can be better depended upon than any other.

Unlike paper, Aluminum does not absorb moisture. It preserves all the original flavor and strength. So now and in the future Red Rose Tea will be packed in the Aluminum package, as it was in years gone by.

Establishes Home for Blind

Former Jewish Immigrant Afflicted Himself Aids Fellow Sufferers

Shedlet Needleman, stricken blind while travelling to America as an immigrant 23 years ago, is awaiting the opening on April 1 of the Home of the American Jewish Association

for the Blind,—his contribution to sightless people of his race.

After being detained at Ellis Island until his father posted a bond against the possibility of his becoming a public charge, Needleman began selling papers at the age of 15. With the money saved from newspaper peddling he founded a printing company in 1912. Eleven years later he began planning construction of the home.

His stay while a boy at the Industrial Home for the Blind in Brooklyn, where he would not eat food prepared there, prompted the idea of an orthodox Jewish institution for the sightless.

Expect Cheaper Cars

Canadians are to purchase their motor cars a little cheaper as a result of the 20 per cent. reduction on sales tax rates in the Federal budget. It was computed in automobile circles that following the tax reductions the retail price of the majority of cars will shortly be reduced from about \$5 to \$15, or approximately the cost of the automobile license. The sales tax on motor cars is charged on the actual cost to the local dealer, or the duty paid value plus freight and excise tax.

The eyelids of a frog wink upward.

Minard's Liniment for rheumatism.

Old Locomotive In Museum

One of the world's oldest locomotives, long famous in England as the Hulton Colliery locomotive, has come to rest at last in a railway museum in York, after a triumphant tour of exhibitions. This veteran, in many respects resembling the world's first passenger engine, Locomotive No. 1, was built in 1822, rebuilt in 1857, and again in 1882.

SO SHORT OF BREATH SHE COULD HARDLY DO HER HOUSEWORK

Mrs. Nelson Moore, Milford, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous every little sound I heard felt like a shock to me."

▲ friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MANY BRANCH LINES PROJECTED FOR THE WEST

Ottawa. Hon. Charles A. Dunning, Minister of Railways and Canals, has given notice of his intention of submitting to Parliament for its approval at the present session, a program of construction work suggested by the management of the Canadian National Railways and their board of directors. Parliament is to be asked to authorize the Canadian National Railways to proceed with the construction, during the next three years, of 479.2 miles of railway. The proposals are divided into three groups:

- 1.—Lines which offer economic and operating advantages to the system.
- 2.—Branches for the purposes of general development and colonization of the country which will constitute feeders to the system.
- 3.—A branch which will link the Hudson's Bay Railway with the South lines of the Canadian National Railways system.

The cost of these new lines, which are to be completed by August 31, 1930, will be \$19,120,000 and the program has been submitted, the management states, after exhaustive consideration of the requirements of the National system.

About 50 per cent. of this railway building program will be in Saskatchewan, an analysis of these figures show. This is entirely apart from the extension program of the Canadian Pacific Railway.

The railway management states that it may be found desirable to ask at some time during the next three years for one or two extensions, as a result of developments not fully foreseen at this time.

The railway executive also have expressed their satisfaction at the results obtained from the new lines which Parliament sanctioned in 1924.

Will Settle Legality of General Strikes

Job for Government Not Judge, Says Earl Birkenhead

Liverpool.—The broad intentions of the Government's legislation to be introduced restricting the privileges of trade unions were indicated by Earl Birkenhead, secretary for India, in the course of his address here. "We do not think it proper to leave the legality or illegality of a general strike to depend upon the expression of opinion of a judge, however distinguished he may be," he said. "We intend that it should be laid down by the authority of that parliament which was challenged, that now and hereafter that weapon is forbidden, and has become criminal."

Ambassadors Deny Rumors

England Has Not Given Italy Free Hand Against Turkey

Constantinople.—Rumors that England had granted Italy a free hand against Turkey as compensation for Italian cooperation in China so agitated public opinion here that the Italian and British ambassadors today issued public denials.

Deputy Mahmud Bey, chief spokesman for President Mustafa Kemal Pasha, scouted the idea of Italian aggression, but stressed the fact that the reinforced Turkish army is prepared for any eventuality.

Is Champion Dog Musher

Quebec.—Emil St. Godard, The Pas, Man., finished the race in the Quebec International dog derby in three hours 55 minutes and 15 seconds. His total elapsed time for the three days of racing was 11 hours, 37 minutes and 35 seconds, which conceded him the race and title of champion dog musher of the North American continent and of the world.

Mail Planes Burned

Kansas City.—Fire destroyed a hangar at Richards Field, near here, containing four air mail planes. The planes were owned by the National Air Transport, Inc., which holds the Chicago, Dallas line contract. The damage was estimated at more than \$100,000.

W. N. U. 1670

Suggest Conference on Old Age Pensions

Matter Was Recently Brought Before Alberta Legislature

Edmonton.—Old age pensions came before the Alberta Legislature following the introduction of a motion by J. T. Shaw, Liberal leader, that the Government should introduce at the present session an old age pension bill and an amendment by A. A. McMillan, Conservative leader, that the question be discontinued at the present session and if thought fit, that a bill be introduced as soon as federal legislation upon this subject has been enacted by the Dominion Parliament.

Premier Brownlee adjourned the debate with a view to the bringing in of a compromise amendment on which all those opposed to the motion might agree.

Premier Brownlee thought that even if the federal House decided to adopt a principle of 100 per cent. liability for payment of old age pensions, nobody would very seriously challenge the legislation.

If a conference were held, he suggested, it might be possible in case the federal Government refused to accept 100 per cent. liability, that it would undertake seventy-five per cent. of it and he pointed out that the Ottawa House might lower the pension age to 65, which would bring Alberta's share of the burden to possibly \$600,000 a year.

To Protect Shareholders

Shareholders of Saskatchewan Co-operative Elevator Co. to Benefit

Regina.—Shareholders of the Saskatchewan Co-operative Elevator Company will receive \$155.78 for every 1911-12 share for which they originally paid \$7.50, if the bill providing for the winding up of the company passes the Legislature in its present form. In other words, a shareholder holding the limit of 20 of these shares will receive \$3,115.60 for them on the pro rata method of distribution proposed in the bill.

Shares issued in succeeding years will be worth proportionately less, the last shares issued being worth \$27.87 under the provisions of the bill. The difference is accounted for by the fact that the shares issued in different years are paid up in varying amounts ranging from \$42.50 for the 1911-12 shares to \$7.50 for the last issue, stock bonuses accounting for the difference in the paid up value.

"Speculators" who planned to make a "clean-up" on these shares will be out of luck if the bill can prevent it, Premier Gardiner declared, making it clear that the government desired to protect not only the delegates attending the annual meeting of the Elevator Company next week but the thousands of shareholders remaining in the country.

Would Aid Boy Scouts

Ottawa.—Suggesting that some portion of the 10 per cent. reduction in income tax, provided for by the recent budget of Hon. J. A. Robb, minister of finance, should be paid by each income taxpayer to the Boy Scouts' Association, His Excellency Viscount Willingdon made an earnest plea for financial support to the association at a largely-attended luncheon here. His Excellency said he spoke as Chief Scout for Canada and "chief beggar on behalf of the Ottawa Association."

U.S. Miners May Strike

Washington. While there remains the possibility that the soft coal miners and operators of the country will reach an agreement at a later conference, the break up of the Miami meeting is looked upon here as practically assuring a strike April 1.

Petition for Resources

Ottawa.—A petition bearing 3,500 names asking for the return to Alberta of its natural resources "without restriction" was tabled in the House of Commons by H. C. Hocken, Conservative, Toronto West Centre.

Premier on Vacation

Atlantic City, N.J. Premier W. L. M. King, of the Dominion of Canada has arrived here for a brief vacation. Mr. King refused to see newspapermen on his arrival, declaring he wished to rest.

California has an automobile for every 2.9 persons.

BRITAIN SENDS STRONG NOTE TO RUSSIAN SOVIETS

London. The rising tide of British feeling against Communist propaganda and the unsatisfactory relations between the British Government and the Russian Soviets have culminated in a stern warning forwarded by Sir Austen Chamberlain to the Soviet Government against the "continuous breach of solemn engagements" between the two Governments and also the widespread Bolshevik propaganda.

The warning was in the form of a diplomatic note declaring in the gravest terms that the Anglo-Russian trade agreement would be abrogated, even diplomatic relations completely severed, unless "the flagrant violations of the solemn agreement between the two countries cease."

The note, addressed to M. Rosenholz, Soviet representative in London, is the strongest of the numerous protests sent to Russia since the trade agreement was signed in March, 1921, and is one of the most outspoken diplomatic documents ever issued from Downing Street.

The first heavy clouds on the Anglo-Russian horizon came in 1924 with the famous Zinovieff letter which was one of the main causes of the downfall of the MacDonald Labor Government.

Moscow gold—a million sterling of it—contributed to aid the British workers to strike last year, which the London Government considered a revolutionary movement, further darkened the skies as have recent events in China, where the British are convinced Bolshevik agents caused the Chinese to single out the British as their arch-enemies among the hated foreigners.

Grain Shipped Cheapest Route

Western Growers Have no Preference as to Ports

Halifax. M. Snow, member of the Dominion Grain Commission, and one of a delegation of Western grain men who inspected the elevator facilities at this port, states that no great movement of grain through Halifax can be anticipated pending additional terminal equipment.

Mr. Snow contended western grain growers and shippers had no preference as to ports. They were primarily interested in economy and Halifax, Saint John and Portland looked all the same to them.

Grain would follow the cheapest route and by way of illustration he pointed out that United States grain was shipped through the port of Montreal when that port offered the lowest rates available.

Cut Cattle Rates

Ottawa. Word has been received here that the Reford Line and the Canadian Government Merchant Marine have cut the Atlantic rate on cattle from \$20 to \$15 per head. No information has yet been received as to a similar cut by other lines.

Young Journalists Will Attend Meeting

One Thousand Expected at New York's International Gathering

New York. More than 1,000 boy and girl editors ranging in age from 12 to 18 years and representing school publications in 43 states, Canada, Alaska, Hawaii and the canal zone are expected to attend the third annual convention of the Columbia Scholastic Press Association here March 11 and 12. The student journalists have submitted their publications in a competition for 13 silver trophies and certificates of honor.

Papers written and edited by the departing children will be entered in a feature contest. Foreign language papers, prepared by American students and trade journals will also be entered in the contest. The publications to be represented at the convention run into hundreds and are of many different types.

Found Guilty of Arson

Six Kiev Firemen Including Chief Will be Executed

Kiev, Ukraine.—Severe sentences have been passed on ten firemen found guilty of arson. Six of them, including the chief, will be shot, two were sentenced to ten years' solitary confinement and the other two must serve five years in prison. The chief pleaded that the men set the fires fearing they would lose their positions because of a long period of inactivity.

The members of the fire brigade were arrested several days after they had been commended for heroism and skill in fighting fires in the Trade Union Club of Kiev, and the headquarters of a navigation company. It was charged by the police that they deliberately set the buildings afire for excitement.

Russian Refugees Fighting in China

Vanguard of Chang's Army Suffer Many Casualties

Shanghai. Six thousand "white" Russians, vanguard of Chang Chung Chang's army, defeated forces of Wu Pei Fu in Honan province in a battle in which the Chang forces alone suffered 3,000 casualties.

The Russians, believed to be refugees who fled to China to escape the Bolsheviks in their own country, are fighting with Chang's army in its attempt to force its way through the territory of the inactive Wu so it can attack the Cantonese forces in the south.

Addressed Large Audience

New York. The voice of President Coolidge in eulogy on George Washington was carried by radio to countless millions throughout the world—the largest audience ever addressed by man. Mr. Coolidge's voice was broadcast throughout the country by a hook up of 12 stations and broadcast in Europe, London, Paris and Berlin listened in and reports were that reception was unusually clear.

ANGLO-AMERICAN AMITY STRESSED BY HON. MASSEY

New York. "To strengthen the bonds of sympathy between His Majesty's oldest Dominion and the Government and people of your great Republic."

Thus Hon. Vincent Massey summed up his mission to the United States in a speech before the Pilgrims' Society here. It was his first public address in the United States since he assumed office as Canada's minister to Washington.

Mr. Massey paid tribute to the friendliness of Washington extended by President Coolidge, the members of his cabinet and the citizens of the capital generally. He assured his hearers that Hon. W. S. Phillips, newly appointed minister from the United States to Canada, would find a genuine welcome awaiting him in Ottawa. He went on to speak of the "noble contributions which the Pilgrims' Society has made to the cause of strengthening the friendship which exists, and must ever exist, between the people of the United States and of the British Empire."

"Canadians," he added, "are on the same high pilgrimage of international amity and goodwill. We feel that we know you who live just across our border and can understand in some measure and appreciate the intricate and fascinating pattern which modern American life presents. On the other hand, we have, too, a first hand knowledge of and an abiding affection for the great mother nation whose progress has been placed upon our institutions and our modern life."

"Inheritors of a common language and a common heritage for art and literature, the United States and British peoples probably always will be found shoulder to shoulder in any crisis which threatens society," Mr. Massey said.

"National characteristics," he added, "are not an obstacle to international amity. They give color to life in a world where standardization has become a peril. Unity in diversity is a key to Anglo-American relations."

Time Limit for Tourists

Automobiles Entering Canada From South May Now Stay for Sixty Days

Ottawa. Permits for automobiles driven by tourists entering Canada have been extended from thirty to sixty days, according to an announcement by Hon. W. D. Eaker, minister of customs and excise.

In the past, American tourists entering Canada have been permitted to drive their cars in this country for thirty days without payment of fees. This period has now been extended to sixty days with the option of an extension to ninety days under certain restrictions.

It is understood that tourists wishing to remain in the full limit of time will be required to present identification and credentials from authorized motor club or similar organization. For some years past provincial governments, Canadian automobile clubs and organizations interested in the tourist traffic generally have been seeking to have the thirty day restriction widened.

Australia's Wheat Crop Larger

London. Sir Joseph Cook, High Commissioner of Australia, informed the annual meeting of the Australian Chamber of Commerce that Australia is expecting a much larger wheat crop than last year. He estimated the present crop at 165,000,000 bushels, of which 120,000,000 would be available for export.

Celebrate Red Army Anniversary

Moscow. The ninth anniversary of establishment of the Red army was observed throughout Russia, Feb. 23. The newspapers carry articles by leading Soviet authorities who emphasized the preparedness of the army to meet all eventualities.

Advertise for Carillonist

Ottawa. The Civil Service Commission is advertising for a carillonist, for the new carillon bells which are to be installed in Victory Tower of the Parliament Buildings. The salary is to be \$2,800 a year.

Practise High C's on the High Seas

Sydney H. Nicholson, organist of Westminster Abbey, conducting a rehearsal on board the Canadian Pacific steamship Montrose with the boys of the Westminster Abbey choir, now touring the Dominion in a series of song recitals. With the boys is seen Dr. A. V. Baillie, Dean of Windsor, who is accompanying the choir in its Dominion wide trip.

The Carbon Chronicle

E. J. ROULEAU, Publisher
Printed every Thursday at Carbon, Alta.
\$2.00 a year

BOOM YOUR TOWN!

Boom your town. If you don't, who will? Maybe all the newcomers and prospective residents think it is going to be the metropolis of this part of the country, and it may be. Get in live and energetic men and the town cannot help but prosper, go forward and grow. You never saw a town amount to anything where business men and citizens were always engaged in telling how dead it was—lifeless, and that all powers that be could not start it moving, building up and endowing it with new life. This is enough to kill any town, while the statements are not true. Make the best of everything. Take the progressive side of every reasonable question. Advertise your town and business in every way, and your brightest hopes in regard to it will be fully realized.

The next time you hear a citizen yelping about a typographical error in his home paper just hand him these figures to stop his tongue: in an ordinary column there are 19,000 pieces of type; there are seven possible wrong positions for each letter there are 70,000 chances to make an error, and millions of possible transpositions. In this one sentence, "To be or not to be," by transpositions alone it has been figured out 2,759,022 errors can be made.

Newspaper people from the devil to the boss, and other high officials are merely human and liable to err.

Don't be nosing around for errors, but read for the information you can get and the good you can get.

You will find errors enough in your daily walk through life without having to hunt for them in a newspaper.—Halls Graphic.

Editors, as a rule, are kind hearted and liberal. An exchange tells of a subscriber who died and left fourteen year's subscription unpaid. The editor appeared as the lid of the coffin was being screwed down and put in a linen duster, a thermometer, a palm leaf and a recipe for making ice.

"Yes sir. Why, in America we have theatres so big that when a man in the back throws an egg, it hatches before it reaches the stage."

At fresco lunch on the rinks is the latest innovation to provide the unusual for the guests at the Chateau Frontenac, Quebec. At the fashionable hour smartly uniformed waiters skate out upon the ice pushing a serving table mounted on skates. Its crowning glory is a steaming tea urn and its appearance is the signal for the skaters to gather round to sip real English tea. The innovation has proven a great success for it adds the finishing touch to an afternoon's skate.

A new variety of wheat has been developed by Frank Larcombe, of Minburn, Alberta. Its vital quality is its drought resisting strength. This new variety of grain has been registered at Ottawa as "Vermilion." In 1919 Mr. Larcombe discovered in his wheat crop a few heads that were obviously crossbred and that showed drought resisting quality. He kept the kernels, sowed them in 1920, and gradually built up 1,000 bushels. The wheat is also reported to be heavy yielding.

BANKING REQUIREMENTS of FARMERS

THE banking requirements of farmers differ according to location and the particular branch of farming in which they are engaged.

Whatever your banking requirements may be you will find the Bank of Montreal prepared to give the particular form of service you need.

Strange, Romantic Love Adventures of the Flapper you know

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXVIII—Continued

"No, you won't!" Joanna agreed. "Neither shall I. Teddy would rather have his final answer from me than delivered through his sister, I know. And, I fancy, he'll know quite well what a Dominster wants—and needs. Perhaps he'll get it. Perhaps not. Shall we walk through the grounds? I think you said you'd like to see something of the preparation I'm making. While we are about it I hope you'll choose the place for your seats in my pavilion theatre. I'm staging a little play there that I know you'll love."

"They spent an hour on the grounds. It was as if they had forgotten their time at the tea table. Lady Betty was ecstatic again, and enthused anew at each foretaste of the enfete thrills prophesied by each preparation made by the workmen on the Amette lawns. At the pillared pavilion she was sympathetic with the mystery Joanna spread about the plans which were to have their climax there."

"I shall have Teddy sit close to me to protect me from whatever devilry this pagan temple shall unfold," she threatened. "I shall want him to be very close to you," Joanna agreed. And Lady Betty looked at her quickly. There was something unwonted in the voice of the Golden Girl.

CHAPTER XXIX Memories Again

If the visit of Lady Weymouth left its impress upon Joanna, only Teddy Kenilworth and Teddy Dominster sensed it. Neither of them knew of the appeal to the Golden Girl by the sister of one of them, but both, in their separate regard of her, were conscious of a subtle but insistent change in her.

John might have realized it, too.

Pains Across Kidneys For Two Years Unable to Work

"Gin Pills—Wonderful Remedy"

We receive thousands of letters yearly from grateful users of Gin Pills, who have been relieved of suffering from kidney and bladder trouble. When Nature fails to do her proper work of eliminating harmful waste through the kidneys, bladder and bowels, a remedy must be found. Many people have found Gin Pills to be this remedy. Among them, James Johnson of Bridgeburg, Ont. He writes:

"I was troubled with pains across the kidneys for two years. I was unable to do any work. I read about Gin Pills and got a box right away from my druggist. My sincere thanks are due you for your wonderful remedy, which has done so much for me."

Neglect of kidney trouble spells disaster. Lumbago, Rheumatism and Sciatica as well as bladder and urinary troubles follow. Upon the first warning get a box of Gin Pills, 50c at all druggists. National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

W. N. E. 1670

but his was not a sensitive observation. And, as the days passed, Yvonne had drawn him closer and closer to herself alone. That Yvonne was deliberate, and merciless, in her fascination of the young architect whose name had so suddenly become known around the world, was apparent to all that gay circle which worshipped, like glittering dervishes of a Lucullan cult around the shrine where all is gold that glitters.

As Dominster had repeated to her, as Kenilworth and Brandon had echoed, and as even Lady Weymouth might have said, those who watched were quick to recall, it had been promised that when the brilliant, always dazzling Yvonne Contant decided to strike back, there would be a crash. The crash, they predicted was on its way. And the ruin it would leave would be the Golden Girl.

If there had been restraints fixed by Joanna for her bewildering revel, they seemed suddenly to vanish. Whatever walls she had built around her scruples tottered. So it seemed, and so those who watched concluded. Teddy Dominster was frankly worried. Kenilworth with the calmness of the older man, gave no sign of what ever might have been his reflections, but Joanna found him more constantly at her side.

There was some marvelling at the persistence of the bond which held Yvonne and Joanna together. Between them there seemed to have arisen nothing! As always they were inseparable, whether at the Casino, in the gambling rooms, at Prince Michael's the Opera or at the fashionable gatherings among the villas. There had been a deep interest in the vaguely rumored romance between the young and wealthy American girl and the promising young architect whose dream in stone was coming true. It was believed by some that Joanna was surrendering him too quietly not to have a design in reserve. Others pointed merrily to Kenilworth, Brandon and Dominster and remarked that the hold of her choice, and of her variations, was wide.

Perhaps Martha, who, at times, and in the seclusion of the blue and gold and scarlet boudoir, lapsed from the impassiveness that should hedge in a humble maid, and put her arms around the girl who slept in the big bed, might have added something to any discussion of her mistress. Particularly after that mistress had sat up in the bed, knees drawn up and chin resting on them, silent and almost pulseless, through all the hours after she came in until dawn. What Martha would have liked to have reported, as something however that she couldn't understand, was that when Joanna finally stretched out for a two hours' sleep, she remarked, apropos of nothing:

"There's a lot of things in the world that don't matter!"

John walked with her through the grounds when the workmen, with renewed feverish activities, were putting their finishing touches to the fairy-like structures. The night of the fete was close at hand. Here and there across the grounds miniature domes and spires were being gilded. Their shining surfaces caught the

glints of the sun and mingled them with filmy, iridescent veil over the whole Mediterranean shore.

"It means something, that tint in the atmosphere," Joanna observed. "One of the Monegasques who live here the year round probably would make a prediction of some sort. Every one of them is a weather expert."

They would have spoken of the haze in the air to one of the natives but in their absorption of the imposing details of the reshaping of the Amette grounds, they forgot the embryo artist. As was her custom of late Joanna acknowledged no intrusion between John and herself. After that first day, the day of his arrival, when her heart was ready to leap to his, but was repulsed, she had been what ever his current mood dictated that she should be. At times he put his arms around her, and drew her to him, and there were silences between them. At other times he was detached, moody. Today, Joanna knew, he was fighting with a serious hurt.

The first weeks of his visit had been a calendar of notable occasions for him. The Prince of Monaco, interested always in topics and proposals that are of human merit, had honored him with a command audience and had presented him to that distinguished group of scholars and scientists, and worthy men of other professions, who gather around him from many parts of the world. It is their tribute to the Prince who is dead, the father of the present ruler of the little principality. These savants greeted the young American with enthusiasm. They complimented him upon the daring of his projected monument to the femininity of the inspiration for deeds of valor that soldiers perform on the battlefield. They were interested in the spectacular rise of the young student. He was asked to deliver an address, and did, with triumph to himself.

Just this day, Joanna knew, one of these commands into the covered circle of men whose names were great, had been cancelled; not abruptly, or offensively, but nevertheless. It could only be interpreted as a reminder that even a great purpose and a high ambition could not withstand a too flagrant violation of certain standards. John had become too much a frequenter of the roulette rooms. And there was too great an interest generally in pointing him out as the new devotee of the beautiful Yvonne Contant, and one who would be apt to sacrifice deeply at the altars of her sorceries. The distinguished young visitor from America had become one of the bevy of moths, even if a brilliant one and those who distribute honors are sometimes conservative.

The girl who walked through the Amette grounds with him would have liked to comfort him, but he would give her no opportunity. While they stood on the Trianon steps and watched the distribution of huge piles of blossoms, roses, rhododendrons, and mimosa, already being brought from their Monegasque gardens, Joanna remarked:

"You haven't complimented me upon all of this. Doesn't it remind you, somehow, of the evenings we spent planning the time when we would be able to build, together, a house that would have cost hardly more than my pavilion over there?"

(To Be Continued)

The older a lamb grows the more sheepish he becomes.

Large Pimples Lasted A Year Cuticura Heals

"My face and neck were all covered with pimples. They were red, hard and large and festered and scaled over. For a while the itching and burning were so severe that I could not help scratching, and my face was disfigured. I lost my sleep for about a month on account of the irritation. The trouble lasted one year."

"I used other remedies but they failed to help me. I sent for a free sample of Cuticura Soap and Ointment. After using it I purchased one cake of Cuticura Soap and one box of Ointment and in a month and a half I was healed." (Signed) Miss Emily Doll, Riverton, Man.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Each Free by Mail. Address: Canadian Agents: "Shastown Ltd., Montreal. Price, Soap 25c, Ointment 25c and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

Are Pleased With Massey

Says Canada Has Paid U.S. Compliment in Its Choice of Minister to Washington

The Washington Star, commenting editorially on the new Canadian ministry, says:

"The Canadian government has paid a distinct compliment to the United States in the choice of its first minister to Washington. Few diplomats have come to Washington so well equipped with a knowledge of the problems which will arise and an understanding of the viewpoint of the American government and people." The Star suggests that "a huge task confronts the new minister in the Great Lakes-St. Lawrence deep waterway alone and there are other questions such as water rights and sanitation to keep him busy, with the ever-present problem of smuggling both ways across the border thrown in for good measure."

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Guide newspaper staff, has written: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline." Remember this, wherever there is pain, rub on Nerviline, and you will get prompt results—35c at all dealers.

Cannot Do Without Advertising

No business is so great that it can afford not to advertise. No business is so small that it cannot afford to advertise. No town or city is either too small or too large to advertise. And it seems now is a propitious time for community advertising.

BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home

No other medicine is of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and thus drive out constipation and indigestion; prevent colic and diarrhoea and break up colds and simple fevers.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N.S., says:—"I have six children, and all the medicine they ever get is Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

For none of us liveth to himself.—Romans XIV, 7.

I live for those who love me.
For those who know me true.
For the heaven that smiles above me,
And awaits my spirit too.
For the cause that lacks assistance,
For the wrongs that need assistance,
For the future in the distance,
For the good that I can do.

Influence is as inseparable from character as the fragrance is from the flower, or the shadow from the substance. Every one that lives, therefore, lives not merely unto himself, but has a subtle influence always radiating from him that produces some effect on others. On the rocks beneath us you will find the impress of the tiniest insect as well as that of the largest megatherium; and so in the strata of society, each man has his own place to fill, and will leave his own mark behind for blessing or for the reverse.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

It's easy to be a fool and it's foolish to be easy.

For sale everywhere—Minard's Lintment.

A Smoke-Eating Machine

New Device With Suction Attachment Proves Boon to Firemen

Firemen in Minneapolis may soon lose the appellation of "smoke eaters," for they now have a machine that literally "eats" the smoke for them at fires. The device resembles the "steamer" type of fire engine. It has a boiler-like apparatus with a suction fan attached to a large hose, about 15 inches in diameter. The hose is run into smoke filled rooms and the smoke is drawn out. It has proven especially successful in fighting stubborn basement blazes, where there is much smoke but little fire.

Suffered For Three Long Years From His Kidneys

Saskatchewan Lady Tells How
Dodd's Kidney Pills Helped
Her Husband

Mrs. R. P. Romanynshyn Speaks Very Highly of Dodd's Kidney Pills.

Portage la Prairie, Man. (Special)—Claiming that her husband has been relieved from backache and kidney trouble, Mrs. R. P. Romanynshyn, a resident of this place is enthusiastic about Dodd's Kidney Pills.

"I have found that Dodd's Kidney Pills are very helpful to my husband who has suffered for three years from his kidneys, and is feeling all right now. He tried many doctors and they did not do him any good. It is only Dodd's Kidney Pills that helped him."

Dodd's Kidney Pills strengthen the kidneys and put them in shape to do their full work of straining the impurities out of the blood. With pure blood there is good health all over the body.

There is no reason why anyone should continue to suffer when Dodd's Kidney Pills can be obtained from druggists everywhere, or The Dodd's Medicine Co., Ltd., Toronto, 2, Ont.

Is It Your Nerves?

—Photo by Hayball

Mrs. H. C. Argent

Woodstock, Ont.—"I have never found anything so good for the nerves as Dr. Pierce's Favorite Prescription. Several times in the past I have had spells of nervous prostration—my nerves would go all to pieces. I would become rundown and weak, but Dr. Pierce's Favorite Prescription has always restored my nerves and brought back my health and strength. I have been so greatly benefited by taking the 'Prescription' that I now recommend it to all weak and nervous women."—Mrs. H. C. Argent, 616 Frances St.

Sold by dealers, in both fluid and tablet form; or send for trial pkg. tablets to Dr. Pierce's Laboratory in Bridgeburg, Ontario.

HER SECOND CHANCE

Your best chance
in months for a
night of thrilling
drama---the story
of a woman who
wanted a second
for revenge---and
found her first
chance for love.

Canada's wool production in 1926
is estimated at 17,180,279 pounds, as
compared with 15,553,045 pounds in
1925. The value of the clip of
1926 is estimated provisionally at
\$3,780,000, as compared with \$3,
901,000 in 1925. Ontario led in pro-
duction with 4,926,313 pounds, fol-
lowed by Quebec with 4,850,116
pounds. Alberta led in Western
Canada with a yield of 2,400,000
pounds.

New trade arrangements will be
made between Canada and Cuba as
a result of the visit of the Canadian
Minister of Finance to that coun-
try. Canada will receive preferen-
tial treatment from Cuba and the
products of that country will be ad-
mitted to Canada on terms similar
to those extended to France and
other favored nations. During the
twelve months ended November,
1926, imports from Cuba totalled
\$8,074,101 and exports to Cuba
\$8,099,920.

APPLE SAUCE

That's tearable!

What?

Tissue paper.

Wash your head occasionally,
even if you don't use it.

Rastus was proudly sporting a
new shirt when a friend asked How
many yards does it take to make a
shirt like that? Rastus replied "I
got three shirts like this out of one
yard last night."

Teacher: Name the five senses?
Pupil: Nickels.

How lucky it is that the man in
the moon is blind.

"All I need now is a golf stick,"
murmured the facetious convict as
he gazed sadly at the ball on the
links.

"My heart is in the ocean," cried
the poet.

"You've got me beat," said his
seasick friend as he leaned over the
rail.

Maiden at the tea table—I'm
afraid you don't like tea.

Love-sick youth—I like tea well
enough, but it's the next letter I
really love.

Here's a fine opening for a nice
young man, said the grave digger
as he threw out the last shovelful
of dirt.

Gosh I feel embarrassed. I gotta
patch on the seat of my pants.

Don't let that bother you. Think
how you would feel if the patch
wasn't there.

At a meeting of the fox breeders
of the Annapolis Valley, held at
Middleton, it was stated that silver
black foxes in captivity in the pro-
vince number approximately 10,000
which, at a low valuation of \$200
each, makes a total value of \$2,000,-
000. The annual revenue to the
ranchers is placed at \$600,000.

What is practically the first sheet
copper mined, refined and rolled in
Canada is now at Regina to go on
the roof of the new Canadian Pacific
Hotel there. As at Regina and at
Banff, where magnificent new hotels
are being erected by that Company,
Canadian materials will be used in
the building of the new Toronto
hotel.

The population of the Prairie Pro-
vinces in 1926 was 2,067,682, ac-
cording to the census taken in that
year. This compares with 1,698,137
in 1916, and 808,646 in 1906. In the
twenty year period Manitoba has in-
creased its inhabitants from 365,688
to 639,056; Saskatchewan from 257,-
763 to 821,042, and Alberta from
185,195 to 607,584.

Style- Quality- Performance

for Economical Transportation

The
Coach

Comparable to the Costliest Cars

SMARTLY stylish new belted Fisher Bodies
—modish, new, harmonious Duco colorings
—rich and luxurious new upholsteries and
appointments—never before has any low-
priced car presented so many evidences of
style and beauty, as the Most Beautiful
Chevrolet.

And, underlying this smartness and beauty is a
new and higher standard of quality. Its ad-
vanced features include New Oil Filter, Air
Cleaner, Bullet-type Head and Cowl Lamps,
Newly Designed Radiator, Full Crown Fend-
ers, Sliding Seats in the Coach, and many
others literally too numerous to mention.

But seeing the Most Beautiful Chevrolet is
not enough. . . . Only when you have
ridden in this car and driven it can you fully
realize how supremely satisfying is Chevrolet
performance. For the attributes which gained
the titles of the Most Powerful, the Most
Economical, and the Smoothest Chevrolet are
still present, enhanced by new improvements,
in the Most Beautiful Chevrolet.

It is amazing indeed that the Most Beautiful
Chevrolet in Chevrolet history is now selling
at new and lower prices—the lowest for
which Chevrolet has ever been sold in Canada.
